PROFESSIONAL SUMMARY

I build thoughtful, responsive digital experiences that bridge people, systems and technology. With a background in financial services and customer solutions, I bring analytical thinking, attention to detail and user awareness into frontend development. Through intensive full-stack training at iHub and hands-on project work, I build clean, accessible interfaces and connect them to data and backend services. **Focused on growing as a Junior Frontend Developer and contributing to practical, user-centred products.**

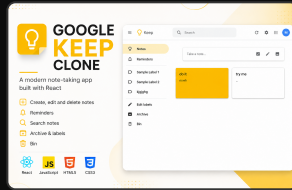

FEATURED PROJECTS

URBAN THREADS: SNOWFALL EDITION
HTML5 · CSS3 · JavaScript · Firebase · Firestore
Full-stack e-commerce experience with authentication, dynamic products, persistent carts and wishlists, search/filtering, dark mode and accessible responsive design.
GitHub · Live project

PAWFINDER
React · Context API · REST API · JavaScript · Git
Collaborative dog-search application using shared state, API integration, search and filtering, favourites and responsive UI.
GitHub · Live project

GOOGLE KEEP CLONE
React · JavaScript · CRUD · Local Storage
Note-taking application inspired by Google Keep with create, view, delete, search and persistent local storage.
GitHub · Live project

PROFESSIONAL EXPERIENCE

- Student Developer** | iHub Full Stack Web Development Programme Mar 2026 – Present
 - Build responsive web applications using HTML, CSS, JavaScript and React.
 - Develop reusable components and user-centred interfaces.
 - Integrate REST APIs and manage application state across React applications.
 - Implement responsive layouts with accessibility and usability in mind.
 - Use Git and GitHub for version control and collaborative workflows.
 - Debug systematically and optimise application performance.
- KYC Consultant** | First National Bank Sep 2024 – Jun 2025
 - Conducted KYC reviews across new and existing business entities.
 - Validated customer and entity information using multiple systems and records.
 - Assessed risk using customer, industry, location and transaction context.
 - Applied FICA, AML and regulatory requirements consistently.
 - Maintained accurate records within governance and data-privacy standards.
- CAF Consultant** | Standard Bank Apr 2023 – Dec 2023
 - Verified income, employment and supporting information for vehicle-finance applications.
 - Conducted affordability assessments using multiple data sources.
 - Managed incoming work accurately within SLA requirements.
 - Applied banking, AML and customer-service standards to sensitive cases.
 - Resolved customer queries clearly while making structured decisions in a high-volume environment.
- Financial Advisor** | Old Mutual May 2022 – Oct 2022
 - Conducted financial needs analysis and developed goal-based recommendations.
 - Prospected and onboarded clients through multiple communication channels.
 - Explained complex financial products in simple, accessible language.
 - Built client relationships through trust, follow-up and service consistency.
 - Adapted recommendations to different customer needs and goals.
- Verification Consultant** | Standard Bank Dec 2016 – Dec 2019
 - Processed and verified documentation for lending and account applications.
 - Captured and validated customer information across systems and source documents.
 - Maintained high accuracy within a high-volume, target-driven environment.
 - Supported fraud detection and risk-assessment processes through careful verification.
 - Applied banking policies, AML controls and data-protection requirements.
 - Handled sensitive customer information with confidentiality and professional judgement.
